About this Skills Programme

SAQA Qualification ID:

SP-NC-BCC-J-3-E-3-18

Minimum Credits:

18

NQF Level:

3

Duration:

This Qualification is run over 4 weeks

Type of course

A credit bearing CETA registered skills programme offered on a full-time basis over 4 weeks.

Purpose of the course

To train new entrants and experienced construction industry stakeholders on how to use, care for and maintain tools, machines and equipment. Delegates will also be trained on how to join machined components, complete a range of products made from wood and assemble roof truss components.

Course outline

Learners accredited with this course will be able to identify a range of timbers and their stock dimensions from the working drawings to manufacture various types of wood joints. Learners will be able to set up and operate machines and manufacture wooden components for various elements.

Entry requirements

Communication and Mathematical Literacy at NQF Level 2.

Course Programme

Unit Standard	Title	NQF Level	Credits
261680	Manufacture wooden components	3	4
261679	Manufacture and fit door and window frames	3	8
14679	Manufacture timber roof trusses	3	6

Upon successful completion of the course, the learner will be proficient in the following areas:

- Identify a range of timbers and their stock dimensions from the working drawings to manufacture various types of wood joints.
- Manufacture components and assemble a range of joints made from wood.
- Join machined components and complete a range of products made from wood.
- Set out and fit a range of wooden products.

Assessment method

To monitor the progress and effectiveness of the learning throughout the training continuous assessments (formative) are carried out by way of written tests and practical assignments.

ACCREDITATION AND B-BBEE

CBM Training holds full institutional accreditation status with the Services SETA – accreditation number 0057.

CBM Training has a B-BBEE Level 2 certificate. We have been evaluated and audited by the BEE Verification Agency.
