

# Introduction to Manufacturing Environment NQF Level 1

15 Day Period

Classroom or  
Blended Learning

**merSETA**  
MANUFACTURING, ENGINEERING  
AND RELATED SERVICES SETA

The Qualification Certificates are issued by MerSETA

Construction

Developing Businesses, People and  
Communities through **High-Impact Solutions**

## About this Skills Programme

**SAQA Qualification ID:**

SP 0007/06-17

**Minimum Credits:**

21

**NQF Level:**

1

**Duration:**

This Qualification is run over 15 days

## Type of course

A credit bearing merSETA registered skills programme offered on a full-time basis over 15 days.

## Purpose of the course

This course helps learners identify and describe the features of a manufacturing, assembly or engineering process; as well as identify safety, health and environmental issues within the workplace. In addition to this, learners will also understand what behaviours are appropriate in a workplace and respond to inappropriate behaviours.

## Course outline

The key focus of this course is on the skills and knowledge required to service, maintain, repair or manufacture a product and introduces learners to a manufacturing environment.

## Entry requirements

Communication and numeracy at ABET Level 3.

## Course Programme

Unit Standard	Title	NQF Level	Credits
13169	Describe and discuss issues relating to HIV-AIDS, TB and sexually transmitted illnesses and their impact on the workplace	1	4
13162	Identify and describe inputs, outputs, stages and quality indicators of the manufacturing, assembly or engineering process	1	10
13174	Identify and discuss inappropriate behaviours in the workplace	1	2
13167	Identify potential hazards and critical safety issues in the workplace	1	2
13172	Understand the employer/employee relationship	1	3

Upon successful completion of the course, the learner will be proficient in the following areas:

- Identify and describe the features of a manufacturing, assembly or engineering process and the changes which occur.
- Understanding what behaviours are appropriate in a workplace.
- Understanding the employment contract, procedures, rules and policies which determine workplace relationships.

## Assessment method

To monitor progress and effectiveness of learning, continuous assessments (formative) are carried out by way of written tests and practical assignments, throughout the training.

## ACCREDITATION AND B-BBEE

CBM Training holds full institutional accreditation status with the Services SETA – accreditation number 0057.

CBM Training has a B-BBEE Level 2 certificate. We have been evaluated and audited by the BEE Verification Agency.
